

# Chick-fil-A Copycat Frosted Lemonade

## Ingredients:

1 cup fresh squeezed lemon juice (sunkist brand is recommended as it is the brand that chick fil-a uses)  
1/2 cup sugar  
2 1/2 cups water  
vanilla ice cream

## Directions:

- 1) Add lemon juice and sugar to pitcher.
- 2) if you are using bottled lemon juice, increase amount to 1 1/2 cups.
- 3) Stir until sugar is dissolved.
- 4) Add water and stir until well mixed.
- 5) Refrigerate at least 1 hour to chill.
- 6) Add 1 cup chilled lemonade and 2 cups (about 4 scoops) ice cream to Bosch blender.
- 7) Pour into cup and garnish with lemon slice.

## Flavor Options

- *Strawberry:* Give it a strawberry twist by simply swapping the vanilla ice cream flavor for strawberry. Or you could throw in a few fresh strawberries with the vanilla ice cream.
- *Orange:* Do orange flavored by swapping out the lemonade for freshly squeezed or 100% orange juice
- *Lime:* I bet you could guess this one :) Same as the orange juice--swap the lemon juice again for freshly squeezed lime juice or store-bought 100% lime juice.
- *Chocolate Orange:* Use the same recipe but swap the lemon juice for orange juice and use chocolate ice cream instead of vanilla ice cream
- *Mint:* You can add another layer of a fresh cooling effect by adding in a few mint leaves as well
- *Grown-Up Version:* Add in a splash of vodka for the “grown-up version”
